	ART programme / AIDS clinic	PMTCT	VCT/HCT	TB Clinic and CB DOTs	Malaria control	Palliative care
Doctors						
Nurses						
Midwives						
Counsellors (not nurses/midwives)						
Administrative staff						
Others e.g. Lab						

IV. INFRASTRUTURE, EQUIPMENTS AND DRUGS

10. Has there been any contribution to any of the following by the GI projects? (Y/N)

	ART programme / AIDS clinic	PMTCT	VCT/HCT	TB Clinic and CB DOTs	Malaria control	Palliative care
New construction						
Renovation to expand space						
Repair of building						
New equipments						

11. Has there been any contribution to any of the following by the GI projects? (Y/N)

Antiretroviral drugs						
Coartem						
Anti-TB drugs						
Cotrimoxazole						
Food supplies						
Other drugs e.g. pain killers, m/vit, etc						
Laboratory supplies e.g. gloves, test tubes, slides, reagents etc						
Other supplies e.g.						

12. Stocks of drugs and supplies from the GI programmes / projects

	Balance brought forward from previous quarter	Amount ordered in the quarter	Amount actually received in the quarter	Total amount available in the quarter	Amount actually needed in the quarter (number of patients who needed supply)	Shortage or balance
Triemune						
HIV Test Kits (No of tests)						
Coartem						
Rifinar (Rifadine + INH)						
Ethambutol						
Pyrazinamide						
INH(300mg)						
INH (100mg)						

V. EFFECTS ON OTHER SERVICES

13. Give the most significant positive effect(s), if any, these GI interventions have caused on the:

Out-patient services

.....

Antenatal Clinic services

.....

In-patient care

.....

Performance of the staffs

14. Give the most significant NEGATIVE effect(s), in any that the GI interventions had on the:

Out-patient services

.....

Antenatal Clinic services

.....

In-patient care

.....

Performance of the staffs

.....
